INDEPENDENT PRACTICE

1. Fill in the diagram below. Use it to list the effects of Spanish exploration in Texas.

![Diagram](image)

2. Sequence the following events in the correct order. Place a 1, 2, 3, or 4 next to each event.

   1. Spanish and French explore the Americas
   2. Paleolithic Indians cross the Bering Strait into America
   3. Native Americans arrive in Texas
   4. Columbian Exchange

Background: The Columbian exchange began when Columbus first arrived in the Americas. This process involved the transfer of plants, animals, and diseases between the Americas (New World) and Europe, Africa, and Asia (Old World). The explorers brought new things to the New World and the Native Americans. In exchange, the Native Americans gave the explorers and the Old World some of their things. This is called the Columbian Exchange.

3. Write one paragraph explaining positive effect and one paragraph explaining negative effects of the Columbian Exchange in Texas. Consider the following:
   - The transfer of new animals and plants
   - The spread of European diseases
